**Stylish and compact, Apricorn's NetDock is the
perfect accessory for your NetBook**

**With a sleek design, optical CD/DVD drive, four port USB-
Hub to connect to your peripherals and built in hard drive
for additional storage, you now have all the functionality of a
regular notebook in a stylish, portable package.**

For keeping you connected on the go, Netbooks are ideal. Their streamlined, ultra-portable design means you can take them anywhere. But what to do when you need more functionality from your Netbook?

Not a problem with Apricorn's NetDock. Say you want to install a new program, access some additional storage, watch a DVD or burn a CD, or perhaps you wish to connect your Netbook to some speakers and your printer. Apricorn's NetDock allows you to do all of these things, in a package just over the footprint of a CD.

Featuring a convenient four port USB-Hub, a high capacity hard drive and the latest optical engine for burning and playing CD and DVDs, Apricorn's NetDock easily changes your Netbook into a mini media center. The NetDock's built-in hard drive enables you to store your media collection in one location. Play your favorite movies or burn a friend a CD from your Netbook with just one simple connection. The included synchronizing software is perfect for keeping your data up-to-date between your Netbook and NetDock.

With two, ALWAYS ON USB ports, the NetDock is perfect for charging USB devices, such as cell phones and MP3 players. And the NetDock's slim, portable design is also great for travel, as a supplement to not only your Netbook but also to any other portable USB devices.

With all of the added functionality the NetDock provides you really can have it all, the functionality of a laptop with the size and mobility of a Netbook. Can it really get any better?
