

# microKey FLASH

RUGGEDIZED USB STORAGE DEVICE

- Ultra-portable  
Bus powered - no need for AC adapter
- Crush resistant Aluminum alloy enclosure
- Durable Solid State Flash Memory to protect your data
- Swivel interface for access to virtually any USB port
- Small & lightweight, weighs only 2.5 oz.
- Slim design, allows access to adjacent USB ports
- Complete software bundle to synchronize and encrypt your data
- Protective carrying case
- Power on & Activity LED
- RoHS Compliant
- 1-year warranty

## MicroKey FLASH... designed to be the most durable USB memory key ever built.

Apricorn's MicroKey FLASH is a ruggedized high capacity, small form-factor USB memory key that lets you safely take your data anywhere. Utilizing durable Flash based memory and providing tank like protection for your data with its lightweight, durable aluminum alloy enclosure, our tiny, high capacity USB memory key easily safeguards your precious data from the rigors of travel.

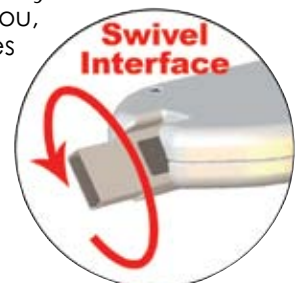

The MicroKey FLASH's slim design features a crush resistant enclosure and a swivel interface, giving accessibility to virtually any USB port, even adjacent ones. It's small lightweight size (only 2.5 oz), and rugged carry case, perfect for carrying on a belt, makes the MicroKey FLASH the most portable drive of its kind.

Available in 1GB\*, 2GB\*, 4GB\* and 8GB\* models, the MicroKey FLASH's rugged design and powerful software is perfect for industrial applications, such as data logging, or for those users that demand the most robust of equipment.

Bundled with a comprehensive software suite, the MicroKey FLASH comes with everything you need to synchronize and protect your data. Use **Second Copy 2000 Synchronizing Software** for all of your file synchronizing. When you're done working, **Second Copy** will synchronize all of your changes to your home or office computer, keeping your data up-to-date.

Secure your data with absolute privacy using **Cryptainer Encryption Software**. Utilizing your choice of Blowfish 448 bit or AES 256 bit encryption, **Cryptainer** enables you to password protect any file or folder, so your data is accessible by you, and only you, no matter where you are. Simply drag and drop the files and folders you wish to hide and your data is safe and protected.

The applications of the MicroKey FLASH are endless. Its super robust design, high capacity, and powerful software makes it the perfect companion for everyone from mobile professionals, industrial users and those just looking for a rugged and reliable way to carry their data around.

\*One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.
