Apricorn Upgrade Kit for iPod®

Increase the number of songs, videos & pictures you can store on your 5th Generation Video iPod

If your music and video collection is getting too big for your iPod, or you are just not getting the same amount of play time as you used to, Apricorn Upgrade Kit for iPod is the answer.

- Upgrade your 30GB* Video iPod to 80GB or 120GB **OR**
- Upgrade your 60GB or 80GB iPod to 120GB or 240GB

The kit includes everything you need to upgrade your iPod: a new high capacity hard drive, a long life lithium ion battery, the tools to open the case and an instructional video.

The upgrade takes about 10 to 20 minutes and is completed in a few steps. First watch the instructional video. This will show all the steps and how to perform them. After watching the video you are ready to upgrade your iPod. If you need to review a step, the video will allow you to watch the entire process or review individual sections. After the process is complete, just plug the iPod into your computer and restore using iTunes®. It really is that simple.
